Information About My Self

Helo, let me introduce my self. My name is AL AZHAR RIZQI RIFA'I FIRDAUS. Other people used to call me Azhar. I was born in Surabaya, August 24 2003 2:35 PM. I don't have a brother or sister because I'm an only child.

My home address is on Candi Agung IV Street number 10. I graduate from Vocational High School 4 Malang, software engineering major. Very happy to feel the school at Vocational High School 4 Malang because I have a lot of solid friends.

At Vocational High School 4 Malang, I learned a lot of programming. I have learn Django, a framework from python language, to develop backend website and flutter, a framework from dart language, to develop android apps. My motivation to enter the informatic engineering study program is to gain higher knowledge of programming. Because I believe money will follow the value.

I also have some hobbies. Among others are jogging, swimming, playing badminton, and reading book. Usually I jogging on Saturday morning, or Sunday morning. Because I know sports is very important for health. I have been finished reading 2 book. Among them is Atomic Habits and The Psychology of Money. There are many lesson to be learned from reading these two books. For now I'm also reading a book whose title is The Subtitle Art of Not Giving a f written by Mark Manson.

I also have a side hustle as a Gojek driver and Shopee Food driver. Very nice to feel this work, because I can learn to be independent to raise money. But some moments I find it difficult to manage the time where am I at school too, but thanks I can handle it.

That's all for information about me, I apologize if there are words that are not wearing. Thank you.
